ONE COPY—ONE CENT.

THIEVES ABROAD IN MAYSVILLE THIS MORNING

Two Residences Entered by Thieves
At Early Hour This Morning and
Attempt Made to Enter Third
—No Valuables Found
Missing.

Three attempts at robbery were
made during the early hours of the
morning according to reports reach-
ing police headquarters.

The first call came from the resi-
dence of Attorney James M. Collins in
East Fourth street. Mr. Collins was
awakened shortly after 2 o'clock by
his wife who said that she heard
something in their bed room. When
Mr. Collins was aroused the noise
seemed to leave the room and enter
the hall and then go down the steps.
As the stranger started down the
steps the sudden flash of a flash light
was seen and he was heard to step
on the floor in the dining room on
the first floor. Mr. Collins ran down
stairs but no one was seen, however
the front door, which he had closed
and bolted when he came in the night
before, was found standing wide open
and the back door was also open. Of-
ficer Moonhoff soon answered a tele-
phone call but the thief had made his
escape.

A search of the house was made
and nothing was found missing.

Further investigation disclosed that
the back door of Mr. Thomas Malone's
residence was also found opened and
the police suppose the thief tried to
enter his home but the family does
not think any one gained an entrance
as nothing was heard and nothing is
missing.

Mr. A. G. Stewart, former member
of the local police force, now employ-
ed at the L. & N. depot, also reported
to the police this morning that be-
tween 1 and 2 o'clock this morning
thieves entered his home on Forest
avenue through an open window but
they were frightened off before any
valuables were stolen. A coat belong-
ing to Mr. Stewart, however, is miss-
ing.

The police this morning threw out a
net and will arrest any strangers of a
suspicious appearance and make a
very thorough investigation into all
of the reported cases.

NEWLY ELECTED TEACHER CALLED TO SERVE NATION

Prof. R. F. Clark Recently Elected to
Teach Science in the Maysville
High School Must Fight For
His Country.

Superintendent W. J. Caplinger, of
the city schools, has just received
word from Prof. R. F. Clark, of How-
ling Green, Ky., that he will be unable
to teach science and direct the ath-
letes in the Maysville High School
during the coming year because he
has been re-classified by his local
exemption board.

Prof. Clark had been placed in
Class Five by his local board when he
accepted the chair of science in the
Maysville High School but under the
new combing process of the Exem-
ption Boards he has been removed
from that class and put in Class Two,
which in his county means that he
will soon be called into service.

This leaves a vacancy in a very im-
portant department of the local High
School and the faculty will be re-
quired to get together at a very early
date and select some one to succeed
him so that the entire faculty will be
ready at the opening of school in Sep-
tember.

It is expected that the Board of Edu-
cation will have no little trouble in
finding a man to fill this vacancy at
this time as most of the schools have
already selected their faculty and the
most of the available instructors have
been employed.

FUNERAL HELD THIS AFTER- NOON

The funeral of Miss Estene R. Pad-
dock, who died at her home on Fourth
street Tuesday night, will be held
from the Church of the Nativity this
afternoon at 2 o'clock with service
by Rev. William R. Dorn. Burial will
be made in the family lot at the Mays-
ville cemetery.

Call and see Pink and Blue High-
land Linen writing paper at special
prices. 24 sheets for 25c. Envelopes
to match 1c each.

17-21 J. T. KACKLEY & CO.

Mr. J. J. Veach, of Paris, District
Manager of the Central Home Tele-
phone and Telegraph Company, spent
last night here with local manager R.
V. Chambers.

AMERICANS ARE NOWHERE FORCED TO WITHDRAW

Enemy Gains Are Small on Isolated
Sector; Americans Hold Back
Huns and Improve Positions
—Huns Show Action.

With the American Army on the
Marne, July 17—At the hour of ill-
ling this dispatch there have been no
changes on the sectors of the battle
front held by the American troops or
those where they are fighting with
their Allies.

The fighting continues sporadically
throughout the Marne region and the
artillery activity is rather heavy all
along the line.

The American Army in France,
July 17—The American troops cooper-
ating with the French at a point
where counter attacks were carried
out yesterday, were attacked again
this morning by the enemy, who by
reason of the nature of the ground
was able to make slight gains at some
places, while at others the Americans
again pushed their way back. The
lines here have been wavering back
and forth for the past twenty four
hours and the result of the entire op-
eration is indefinite.

In the region of Vanx, west of Cha-
teau Thierry, conditions today were
normal. The Germans there were ly-
ing low after the two minor, but nev-
ertheless important, defeats they had
suffered there in two consecutive
days.

A downpour of rain over the battle
zones between Chateau Thierry and
Dorians, on the Marne front, has
served to slow up the operations since
early this morning.

In the neighborhood of Eossey, in
the bend district, the Americans fur-
ther improved their positions today.

Fighting continued throughout the
day in the region of the counter at-
tack begun by the American forces
yesterday.

Many Germans between the railroad
and the south bank of the river ap-
pear to have made good their escape
to the north bank at several points
during the night.

French observers reported today
that thirteen enemy airplanes fell in
the region over which an American
pursuit squadron was patrolling and
fighting Tuesday.

Within the American lines it had
been considered sure that the Ameri-
cans had downed eight, and possibly
nine enemy planes.

Washington, July 17—The initial
failure of the new German offensive,
so carefully and formidably prepared,
is characteristic of the new phase of
the war said M. Edward De Billy, De-
puty French High Commissioner to
the United States, in discussing today
the results of the first two days of
fighting east and west of Rheims.

The success of the Franco-Ameri-
can cooperation, Mr. De Billy said, al-
ready has been demonstrated and he
added that the Allies can wait for the
future with the same confidence
shown by the population of Paris un-
der the long range bombardment.

"The result of the first two days'
fighting is, on half of the front, de-
cidedly in our favor," and Mr. De Bil-
ly. "Over the rest of the front the
enemy succeeds in gaining almost
four miles at the price of heavy
losses.

"Everybody feels that the first
phase of the German offensive is a
failure, and this may mean within a
few days the failure of the whole of-
fensive.

"For two months Germany has used
all possible means in her power to re-
place her losses in men and to raise
the offensive power of her army.

"Reinforcements taken from the
German troops of occupation in Rus-
sia.

"Use of Russians to replace German
workers.

"Use of Austrian troops for second-
ary tasks at the rear or on Belgian
territory.

"Suppression of all the delays
granted to drafted men.

"Drafting of part of the classes of
1920.

"If these efforts we can appraise
the results that Germany is seeking,
and the importance of an offensive
that cannot be indefinitely repeated,
Germany's human supply is not inex-
haustible.

"With an adversary whose strength
seems to have reached its utter limit,
the French army of 1918, in spite of
the strain of former battles, in spite
of an extension of the French front
of nearly 100 kilometres, has never been
materially and morally stronger.

"American assistance, growing ev-
ery day, has given us, if possible, still
greater confidence in the final victory.
On the 14th of July, the American
people expressed their brotherly love
for Europe. On the 15th, the soldiers
of the United States, fighting with
the French have sealed this pact with
their blood.

SMITH STRONGLY DENIES MURDER OF DETECTIVE

Police Authorities of Ashland Believe
Former Convict Is Responsible
For Officer's Death.

C. H. Smith, the young white man
who according to Thomas Masterson,
who was with him Monday night when
C. & O. Special Officer R. L. Kinneman
was shot and killed and Special Of-
ficer L. V. Johnson injured, confessed
to him that he had fired the shots,
was questioned yesterday by Chief
of Police Payne and C. & O. agents at
Ashland and denied positively that he
had fired the shots or had told Mas-
terson that he did. He admitted how-
ever, the police authorities say, that
he was in the vicinity of the tragedy
and claimed that a tall negro whom
he did not know fired the shots. Smith
and Masterson are both being held
pending further investigation.

Developments are expected to prove
beyond a doubt that Smith is the guilty
party.

The confession of Masterson was
made Tuesday evening and came as a
surprise as it was thought that the
shots were fired by one of the ne-
groes who Mr. Johnson saw running
from the scene just before he heard
the shots and was struck by a bullet.

Masterson who is a small man, ap-
parently about thirty years of age,
says that he has no home but that he
has been living at St. Albans, W. Va.,
and that he has a brother living in
Anderson, Ind. He stated that the
trip he made to Ashland Monday for
whiskey was his "second," "bootleg-
ging" trip to Ashland.

Smith is twenty-three years of age
lives on Cabin Creek, W. Va. He
weighs about 150 pounds, and is about
5 feet 6 inches in height. He has the
appearance of a criminal. He is said
by the police authorities to have serv-
ed a term in the Moundsville, W. Va.,
penitentiary for murder and to have
been recently released. He is known
to his acquaintances as "Cotton"
Smith.

It is presumed that the cause of the
shooting of Mr. Kinneman and Mr.
Johnson was due to fear of arrest on
a charge of bootlegging.

YESTERDAY'S RESULTS National League

Brooklyn, 4; Pittsburgh, 5. 111 in-
nings.)
Boston, 3; St. Louis, 4.
New York 1-1; Cincinnati, 2-1.
Philadelphia, 1; Chicago, 2. (12 in-
nings.)

St. Louis, 6-0; Boston, 7-4.
Philadelphia-Chicago; postponed.

DOVER MAKES RECORD IN CAN- NING FRUIT

Mr. William M. McNitt, Dover mer-
chant, was in the city yesterday on
business and delivered his certificates
for sugar used in preserving to the
County Food Administrator's office.
The little town of Dover must be pre-
paring for this winter in first-class
style for there were more canning
certificates filed at the Food Admini-
istrator's office from the town of Do-
ver than there have been filed from
the entire city of Maysville up to date.

ERS HIRLEY TOBACCO CO.

Present your Stock Certificates at
Farmers & Traders Bank, Maysville,
Ky., and receive your dividend check.

TRAIN RIDERS DISMISSED BUT MILLS IS HELD

Two Boys Who Were Returning Home
From Muntillon Factory Are Re-
tained by Police But Alleged
Slacker Will Be In-
vestigated.

In Police Court yesterday afternoon
Frank Michalik, Frank Smogor and
William Mills faced charges of dis-
orderly conduct. All of the men, who
appeared to be very young, mere boys,
were taken from the blind baggage of
passing C. & O. passenger trains.

Michalik and Smogor said their
homes were in Chicago and that they
had been at Nitro, W. Va., for the past
several weeks working in the govern-
ment ammunition plant there but that
the work was not agreeable to them
and that the cost of living was too
high for them. They said that they
were unable to save any money and
becoming disgusted with the job
started for their home in Chicago.
After examining papers they carried
Judge Whitaker found that they were
telling the truth and allowed them to
go on their way toward home.

Mills, who when first arrested said
that he was 22 years of age and when
asked to show his registration card
said he was but 19, was ordered back
to jail and held on suspicion until his
exact age could be learned by the of-
ficials. All attempts to learn his age
from his parents thus far has been
unsuccessful. Although he claims to
be under the draft age, Mills looks
much older and the officers believe
him to be a slacker.

WORK STARTED ON NEW GARAGE

Contractor J. D. Easton and his
force of men have begun work at the
erection of a new garage in the rear
of Mrs. Kate Wallingford's property.
The garage will be first class and
fire proof in every respect and will
face on North street.

DANCE IN HONOR OF SOLDIERS

A number of the local young wo-
men entertained with a dance at Sep-
tember ball last night in honor of the
fifty-seven young drafted men who
leave this afternoon for Fort Thomas.
A most enjoyable evening was spent.

Sergeant Porter Ray of Camp Tay-
lor, formerly connected with Mell-
vain, Knox & Diener is spending a
week's furlough with his parents at
Sardis.

Hear the New Velvet-Surface Rec-
ord "Parewell To Thee" sung by
Frieda Hempel on the New Edison.

THE DAILY PUBLIC LEDGER

Published Daily Except Sunday, Fourth of July, Thanksgiving and Christmas by the Ledger Publishing Co., Maysville, Kentucky.

EDITOR AND MANAGER: CLARENCE MATHEWS

Local and Long Distance Telephone No. 40. Office—Public Ledger Building.

Entered at the Maysville, Kentucky, Postoffice as Second-class Mail Matter.

DON'T DREAM—LIVE!

If you don't drop your dreams—which too often turn to doubt or despair—and live your stirring part in the portentous world-dream of tragic events, why, some fine morning you'll meet Death up the road, waiting for you.

Not with a garland of flowers and a song-book, either.

Death will be advancing to meet you with a gas-horn in one hand, a fire-edged sword in the other.

Stop dreaming—and act!

Act here—act now—act efficiently!

Not once or twice, by spasms.

No war ever was won that way.

And this one is all the wars of the world brought hellishly up to date and driving straight at you.

You can't even sit drowsily on the track of destiny and let the war train of Prussian destruction run over you.

Not if you want to.

Human responsibility has given you a number.

Human necessity has called you to the colors.

Humanity, itself, has armed you with brave purpose and tender understanding.

That makes it your fight—because, after the war, you can't live along with the rest of the world wearing a shiner's badge of shame. The badge "Made in Germany."

Stop dreaming—and dig or drill.

Dreams only are of value as we translate them into truth.

Your fame y may be embroiling a captain's epaulet, upon your well-famed, unoccupied shoulders, but as for me, I camouflage no hero ships of proud adventure sighting the battlefields of brave mirage.

Paint your shovel-handle, if you will.

Put perfume in your ink.

The ribbons on your saw and hammer, if the whimsy helps, but grip the fact in your hand—made it produce and perform.

Keep a-working and awake.

Dreams are for drones.

Industry is the other name of victory.

Trade your small alarm clock for a big, big one and set its hands and face toward the first pink dawn of determination.

Fold up your dreams and file them away.

If ever you "go over the top" you'll find enough experience to weave into a million dreams.

Wake up! Wake up! And live!

For the other choice is on the way!

CHILDREN AND LANDLORDS

The problem of finding suitable housing facilities for families with children becomes increasingly complicated. From every community of any size comes the cry, "The landlords won't rent to us. What can we do?"

The landlord is often to blame. And it is safe to say that there has been a great deal of profiteering in rents during the past year. But the landlord has a side.

This is the statement, not of a landlord, but of a neighbor tenant telling an amusing story: "Yes, they are supposed to come from a nice family. But Chester, 4 years old, when he has eaten all the oatmeal he wants, turns the bowl upside down on his head, letting the stuff run down over him. The he throws the bowl at the wall."

Do you really blame Chester's landlord for wanting to evict Chester's mother?

Children are allowed to run about apartment halls on roller skates with steel rollers. They are allowed to break windows and write on the wall paper and kick the woodwork. Can any landlord really be blamed for objecting to this kind of thing?

Some one suggests that a contract could be drawn up protecting the landlord against damage and the tenant against eviction. It seems as if some sort of insurance could easily be devised which would fall heavily upon the parents who are too selfish or too stupid to train their children properly. This, if properly designed, would serve three ends: It would provide housing for families with children; it would protect landlords; and it would make some sort of discipline necessary for the younger generation.

And it probably wouldn't hurt the temper of the neighbors either.

"Closed on account of sickness" is a sign observed on a Chicago drug store. We had always supposed that sickness was the very thing which kept the drug store open.

CALLED HER FAMILY TO HER BEDSIDE

Six Years Ago, Thinking She Might Die, Says Texas Lady, But Now She Is a Well, Strong Woman and Praises Cardui For Her Recovery.

Royse City, Tex.—Mrs. Mary Kilman, of this place, says: "After the birth of my little girl...my side commenced to hurt me. I had to go back to bed. We called the doctor. He treated me...but I got no better. I got worse and worse until the misery was unbearable...I was in bed for three months and suffered such agony that I was just drawn up in a knot... I told my husband if he would get me a bottle of Cardui I would try it... I commenced taking it, however, that evening I called my family about me...for I knew I could not last many days unless I had a change for

the better. That was six years ago and I am still here and am a well, strong woman, and I owe my life to Cardui. I had only taken half the bottle when I began to feel better. The misery in my side got less... I continued right on taking the Cardui until I had taken three bottles and I did not need any more for I was well and never felt better in my life... I have never had any trouble from that day to this."

Do you suffer from headache, backache, pains in sides, or other discomforts, each month? Or do you feel weak, nervous and fagged-out? If so, give Cardui, the woman's tonic, a trial.

J. 71

WEED MARKETS SHOW ACTIVITY IN KENTUCKY

Hurley Tobacco Goes to Highest Price Level During Month—Quotations Trend Upward.

Notwithstanding the rapid absorption of the 1917 crop of tobacco during the most active part of the winter and spring sales season, tobacco markets of Kentucky show a rather extensive business for the month of June, 1918, the official report of Commissioner of Agriculture Mat. S. Cohen, indicating a total of 5,485,056 pounds, representing a valuation of \$1,065,607.72, an average \$19.94 per 100 pounds. It is interesting to note that while the total quantity of tobacco sold in June was 60 per cent less than that disposed of during the preceding month of May, the actual value fell only 54 per cent, indicating a general strengthening of prices in all markets of the state.

Hurley tobacco reached its highest level during June, a total of 1,476,761 pounds bringing an average of \$32.24 per 100 pounds, which was an increase over the May average of \$27.71 per 100 pounds. Other averages in June compared as follows with May averages: One-Sucker increased \$2.58 per 100 pounds; unfired dark increased 56 per 100 pounds; fired dark increased 25c per 100 pounds; Green River decreased \$1.30 per 100 pounds. The grand total average increased \$2.62 per 100 pounds.

High prices for leaf tobacco seem assured for a long time to come, say experienced tobacco men. The 1918 planting in Kentucky, the world's largest tobacco-producing section, is believed to be somewhat under that of last year, but even with a crop this year slightly larger than last year's, the market will trend steadily upward. It is said, because of the increasing demand at home and abroad for tobacco products of every description.

AWAKE AMERICA

(EDITOR'S NOTE:—The following poem was written by Bertha Morton, a Maysville colored girl.)

Awake America, awake, awake
To the peril that's in your way
Arouse your boys and let them shoulder arms.
So Sammy will win the day
So Sammy will win the day
When he marches far away!

CHORUS

You know you love America
Her boys are going to be;
The challenges who brave the foe,
The demons of the sea.

Awake America, awake, awake
Just you listen to that sound
The roaring of old Sammy's cannon:
'Tis the best cannon ever found.
America we love you
And your sailor boys in blue.

THE NECESSITY OF SAVING

America, generally speaking, is experiencing the first real schooling in saving that she has ever had. Thrift has never been a predominant American quality. We have always stood close to the foot of the class of nations in the per capita showing of our people in the matter of savings accounts. Americans have been peculiarly prodigal. With us it has been "come easy, go easy."

But the world war is changing all this.

Never before has saving been so necessary. Never have the demands upon us individually, whether for our homes, our city charitable activities, or our national needs, been so great, so persistent. Nor has the impulse to respond to our country's demands ever been so keen with most of us. For we are beginning finally to appreciate that to win this war our soldiers and sailors must have our whole-hearted, sympathetic and free handed backing. With this they will become an irresistible force for democracy and world peace. Without it they cannot but doubt that the country is really back of them. Without it there can be no staunch, steadfast, or old national morale.

And that we must have. Saving requires no special training, no technical knowledge, no exceptional talents. Anyone can do it. The basis of it all is self denial, the backbone of it all is the will to save. Thrift becomes as much a habit in time as extravagance.

But there's a vast difference in the success of the individual as it is right now to the welfare and future of the nation.

Get into training. There's another bond issue coming.

PLANNING FOR PICNIC

The Sunday School of the First Baptist Church is planning for their annual picnic which will be held within the next few weeks. The committee in charge of the arrangements have not as yet been able to make a report but it is expected that the picnic will be held in a nearby woods.

OF INTEREST IN THIS STATE

Stallions Shipped

Lexington, Ky.—Dr. R. G. Lawton, local representative of the War Department's Breeding Bureau, has shipped to the Government station at Front Royal, Va., the thoroughbred stallions Cock of the Walk, which was presented by Frederick Johnson, and Textile, presented by Thomas Monahan, for the production of better army horses. The stallions were shipped in charge of Thomas S. Rafferty.

Two Children Shot

Ashland, Ky.—Henry and Bertha Horn, 12 and 14 years old, children of Ellis Horn, were shot, and it is feared fatally injured, Monday while picking blackberries. Warrants have been issued for Fred and Oscar Cooksey, sons of the owner of the land on which the children were picking the berries.

Covingtonian in Charge

Frankfort, Ky.—Dr. L. H. Crisler, of Covington, will meet with the State Board of Veterinary Examiners, which convenes here July 19, to prepare for applicants who desire to practice veterinary in this state and who have not previously procured licenses. The annual meeting will begin on the last Monday in August, as prescribed by law.

Kentucky Attorney Sues Judge

Winchester, Ky.—Sult was filed here Monday by A. Floyd Bird against Circuit Judge James P. Adams of Reattsville. The petition says that the defendant has, in his official capacity, refused to allow the plaintiff's name to be mentioned in Court, and otherwise discriminated and prejudiced clients against him as an attorney.

Bird is one of the best-known lawyers of Eastern Kentucky, having come into prominence several years ago by his determined stand against the Hargis-Catharine faction, which he vigorously prosecuted.

Judge Adams' district is composed of Lee, Breathitt and Estill counties.

Sheriff Can't Sell Wine

Frankfort, Ky.—A Sheriff cannot sell wine in local option territory even when jailed on for debt and ordered sold by the Court. R. H. Sowards, of Pike county, was in a quandary concerning 60 gallons of wine which he has leveled on in Pike county under an execution of the Court. He asked Attorney-General Morris what to do. Assistant Attorney-General Myatt, after a search of the authorities, advised him not to sell it.

In his opinion to Sowards, Assistant Attorney-General Myatt said that the prohibition laws not only prohibit the sale of intoxicating liquors in dry territory, but forbids persons having same in their possession for sale. The acts of the 1918 session of the Legislature he said corrected the old law by prohibiting the advertising for sale of intoxicating liquors in dry territory.

Secretary Is Re-Elected

Frankfort, Ky.—At the conclusion of an all-day session of the State Library Commission, held here Tuesday, Miss Fannie Rawson, of Louisville, was re-elected Secretary of the commission, defeating Mrs. William Cromwell, of Frankfort, by one vote. A resolution of appreciation for the services of the late General John H. Castleman as a member of the commission was adopted. Miss Harriet Bossett, of Paducah, was elected Assistant Secretary.

Former Solon Dies

Lexington, Ky.—William I. Hughes, 71 years old, prominent local business man and member of the Kentucky Legislature in 1904, died at his home Tuesday after a long illness.

Theater Manager Fined

Lexington, Ky.—Upon preliminary instructions of Magistrate Orville Boone, a jury which heard the case of Alfred Combs and other members of the Churchmen's Committee against the management of the Ben All Theater, charged with having violated the Sunday closing law, otherwise known as the "blue law," by projecting motion pictures on the Sabbath day, returned a verdict Tuesday of guilty and fixed the punishment at \$2, the lowest fine under the law.

The Magistrate's instructions gave the jury no opportunity to discuss the question as to whether or not the public regards motion pictures as necessary. Captain Justin W. Harding, commanding Camp Duell, in his testimony told the jury that he regards motion pictures on Sunday as "very essential" for the recreation of men who are taking technical training here for the war.

Members of the jury after the trial told Manager Charles H. Berryman they are not in favor of suppressing Sunday pictures, but, under the instructions, they had no alternative than to assess a fine. The case of the Strand and Ophion Theaters will be heard Thursday.

PREVENTION MEASURES AGAINST HOPE IN BREAD

The Baker's Weekly makes the following suggestions to avoid "rope" in bread:

First. Make your doughs slightly acid. This can be done by using a commercial acid, several varieties of which are on the market today, or by the use of a small quantity of vinegar in the doughs—about 1 pint for every 100 pounds of flour and substitutes used. Buttermilk in either fresh, condensed, or powdered form is recommended on account of its lactic acid content and its healthfulness—containing much additional nourishment. Fresh buttermilk should be used, 2 quarts to each half of 12 quarts; condensed buttermilk, 3 ounces to each quart of water; powdered buttermilk, 1 ounce to each quart of water.

Second. Use a short-sponge method wherever possible, putting no cereal substitutes into the sponge; but reserving them to be placed in the dough; and the dough, after the sponge is ready, should be worked up as quickly as possible and gotten out of the way, so that the substitute cereals will not remain in the dough any too long.

Third. More yeast is necessary to handle doughs in a shorter time; and as the mixture of flour and substitutes contains 25 per cent less gluten than formerly, 25 per cent more yeast should be used, because the longer these substitutes lie in the dough the more chance there is for developing rope. More yeast and a cool dough, by all means, are advisable.

Fourth. Wash your benches, troughs, and boxes with a strong vinegar once a week; keep your shop well aired, and leave some lime-water in open vessels in your flour room or near your flour and cereal supply.

Fifth. Should a case of rope occur, or any trouble which you have never seen before, get in touch immediately with the Food Administration or with the National Service Committee, so that you will get immediate assistance and advice.

MABEL NORMAND DELVES INTO HISTORY OF JOAN

Mabel Normand appears in "Joan of Plattsburg" at the Washington Theater today. As its name indicates the photoplay is a modern production, sponsored by Goldwyn and written by Porter Emerson Browne. Yet in spite of the presence of the officers' training camp at Plattsburg, there is as strong note of historic appeal as well. For Mabel Normand as Joan, the charter orphan, the drudge of a debar institution, sees herself the reincarnation of the immortal Maid of Orleans, Jeanne of the village of Arc. In this way the past and present are made to meet, and while there are no scenes not laid in the present, the orphan imagines herself clad in mail at the head of a besieging army. Her imagination, of course, takes definite form on the screen and the child is actually seen by the audience in the armor of Joan of France.

Mabel Normand, tormented by spirit voices; Mabel Normand, spurred on by magnificent resolve, and Mabel Normand leading a victorious host—these are new phases of her manifold gifts, disclosed for the first time under the sympathetic presentation of Goldwyn.

Good imitations are sometimes superior to poor originals.

VALUABLE ADVICE

Maysville Citizens Should Profit by the Following Statement.

Doan's Kidney Pills were used by this Maysville resident. Their merit was shown—the story told. Now comes further evidence. The testimony is confirmed. The remedy was tested—the results lasted.

Could Maysville residents demand stronger proof?

It's Maysville testimony. It can be investigated. A Sorries, lock and gunsmith, W. Second and Wall Sts., gave the following statement in January, 1912: "The action of my kidneys was irregular and the kidney secretions contained sediment. I had backaches and when I stooped over, I had trouble in straightening up. Colds settled in my back and kidneys, too. Doan's Kidney Pills stopped the trouble and my back and kidneys became as strong and well as ever."

A LASTING EFFECT. On November 14, 1916, Mr. Sorries said: "I am the same strong believer in Doan's Kidney Pills today, as when I gave my former endorsement. I haven't had any trouble with my kidneys in that time and I believe the cure they gave me will be permanent."

Mr. Sorries is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—If your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mr. Sorries had—the remedy backed by home testimony. 60 cents at all stores. Foster-Milburn Co., Props., Buffalo, N. Y. "When Your Back is Lame—Remember the Name."

FRUIT SYRUPS

NEED NO SUGAR

Use the Concentrated Sweetness of the Fruits in Place of Sugar in Cooking.

Washington—Sweet fruit syrups require no sugar in the making and may be used in place of sugar in several ways in general cooking, according to specialists of the United States Department of Agriculture. Apple syrup is especially good for cakes, hot biscuits, candies and seasoning.

To make it add 5 ounces of powdered calcium carbonate to 7 gallons of apple cider. Powdered calcium carbonate (carbonate of lime) or, to give it its common name, precipitated chalk, is low-priced and harmless. Boil the mixture in a kettle or vat vigorously for five minutes. Pour the liquid into vessels, preferably glass jars or pitchers; allow to stand six or eight hours, or until perfectly clear. Pour the clear liquid into a preserving kettle. Do not allow sediment at bottom to enter. Add to the clear liquid one level teaspoonful of lime carbonate and stir thoroughly. The process is completed by boiling down rapidly to a clear liquid. Use density gauge or candy thermometer and bring the temperature up to 220 degrees F. If a thermometer is not available, boil until lank is reduced to one-seventh of the original volume. To determine whether the syrup is cooked enough test as for candy by pouring a little into cold water. If boiled enough it should have the consistency of maple syrup. It should not be cooked long enough to harden like candy when tested.

When the test shows that the syrup has been cooked enough, pour it into fruit jars, pitchers, etc., and allow it to cool slowly. Slow cooling is important, as otherwise the suspended matter will not settle properly and the syrup will be cloudy.

A good way to insure slow cooling is to stand the vessels, full of syrup, in a bucket or a wash boiler of hot water or to place them in a fireless cooker. The white sediment which settles out during cooking is called "maltate of lime" and is a harmless compound of lime with the natural acid of the apple. When the syrup is cooled, it should be stored in fruit jars, bottles, or jars and crocks. Place the rubber and cap or cotton stopper or cork in position and tighten. Place the container in boiling hot water and sterilize for the length of time given below for the particular type of outfit used:

Water bath, homemade or commercial 15
Water seal, 24 degrees 10
5 pounds steam pressure 8
10 pounds steam pressure 5
Remove jars and tighten covers. Invert to cool, and test the joints. Store for future use. This recipe is for making syrup primarily for home consumption. If the product is to be sold, legal requirements as to labeling should be ascertained and complied with.

Don't forget that the brown stone front usually depends on a homely brick rear for support.

Good flavor—rich nourishment—easy digestion—economy in Grape-Nuts FOOD
"There's a Reason"

BETTER ROAD ENGINEERS IMPERATIVELY NEEDED

Between now and the first of the year the fiscal editors of Western Kentucky will be thumbing over lists of eligibles for appointment to the office of county road engineer. It is not repetition to suggest that none but qualified men should be considered for the job, but it is worth while to note that now, more than ever, when building materials are high, and money too plentiful, labor short, and facilities hampered, none but the best available men should be considered acceptable. A great many fiscal courts with characteristic indifference seem to think that the qualifications of an appointee to this position should be honesty and good nature. There is so little else to recommend the majority of them that no other impression is warranted. Yet it is far from the truth. It is very doubtful indeed if any man can make a good county road engineer under modern road building regulations who is not a graduate engineer and a master of the profession. The old day of "hack" road working, dumping and rolling and leaving the rest to chance, has gone by. The road of today is scientifically constructed—built—built in every sense of the word, not just gouged out and patted down. Nevertheless many counties in Kentucky and most of the counties in this end of the state are trying to make the grade with the "hack" type of road engineer, and the people in those counties are wondering why, with material and money at hand, roads are little if any better than they used to be. It can not be held down as a hard and fast rule that NO OTHER than an engineering graduate CAN build a good road, but if a so-called "practical man" is to be relied upon, he should be one who has at least been trained by a man who knows how. Roads built according to the personal ideas of untrained engineers will NEVER return valued received. The building of roads is an EXACT SCIENCE today, and the man to build them is the man who is MASTER OF THE science.

IT IS NOW "UP TO" OPERATORS AND MINERS

The weekly reports of coal production received by the United States Fuel Administration show that the railroads and ocean transportation at the present time are within easy reaching distance of the mine output. While weather conditions are favorable for transportation by both rail and water, maximum production should be secured from the coal mines. It is up to the operators to see that their plants are being efficiently operated and to the miner to work full time six days weekly.

It is the belief of the Fuel Administration that there are sufficient men now in the mines to load enough coal to take care of the capacity which the railroads can conveniently handle. Reports from some of the fields show that the men do not average to exceed over three and one-half or four days weekly.

Now is the time for coal operators and miners to use all their energy to stimulate the production of coal, as it is realized the maximum production can only be reached when transportation conditions are favorable and every effort should be made to increase the production in order to furnish stocks of coal to the important war industries before full movement of the crops adds its transportation burdens.

The woman who paints her pale cheeks pink may look with scorn and contempt upon the woman who has occasion to dye her hair red.

Many a man is forced to play the game of life who doesn't hold a single trump.

PUBLIC URGED TO SEE PERSHING PICTURE

Federal Committee on Information Frees That All See Pershing's Crusaders.

The state managers of the feature picture "Pershing's Crusaders" have received the following telegram from the Committee on Public Information: New York, N. Y., June 21, 1918. Big Feature Rights Corporation, 1105 Theatre Bldg., Louisville, Ky.

You are hereby authorized to call upon every exhibitor in your territory and tell them that the Government would like them to exhibit "Pershing's Crusaders." In order to assist the Government in showing every American citizen what our army is doing both over here and over there we want you to impress upon every exhibitor the benefit of this. Please furnish us daily comprehensive report on every house to which you call on, we would like every house in your territory to play this picture sooner or later. COMMITTEE ON PUBLIC INFORMATION.

This picture will be shown at the Washington and Gem on next Saturday.

FOUL RATIONING PROBABLE

The U. S. Fuel Administration has devised a system of coal rationing for the coming winter which will secure effective conservation. The system may be adopted at the discretion of local Fuel Administrators. It would limit domestic fuel supplies to an amount sufficient to keep the temperature of rooms and buildings at 68 degrees temperature. The allowance for each consumer will be sufficient for comfort but the thoughtless and wasteful consumer who finds his allowance gone before the end of the winter, will have only himself to blame if he has no fuel with which to heat his house. Under the system in contemplation every one will get his fair proportion of coal, but the hoarder will be eliminated. This system has worked out in Philadelphia and found to be an unqualified success. The important features of the plan are:

First, a censorship of every order for coal received by any dealer, each order being compared with a figure obtained by very simple yet effective formulas showing the rating of the house where the coal is to be used;

Second, actual inspection of all doubtful cases and a checking up through inspectors of statements made by householders as to the coal on hand, the space to be heated, and the heating system employed;

Third, an effective refusal to furnish any household more coal than a scientific analysis shows is necessary if the requisite care is taken in the heating of the house. Under this system surplus coal will be refused.

All consumers who have obtained a quantity of coal in excess of their allotments, or who by deceit or misrepresentation have violated any rules and regulations of the Fuel Administration, will be prosecuted.

SOLDIERS AND FAMILIES WILL GET FREE LEGAL AID

Washington—Free legal and business advice for all men in the military service and their families at home soon will be available. The war department announced tonight that a complete system for the purpose now is being worked out by the judge advocate general of the army, the American Red Cross, the Council of National Defense, and the American Bar Association.

Young military attachés are always willing to instruct pretty girls in the use of arms.

SUGARLESS PIE-FILLING

Can the Windfall Apples for Winter Pies—Sugar May Be Added When Baking the Pie.

Washington—Plenty of apple pies are guaranteed for Americans next winter in spite of the sugar shortage. Housewives are going to save the windfalls in pie-filling canned without sugar, according to specialists of the United States Department of Agriculture. Apples canned by this method will be available later on when sugar may be added or pies may be seasoned with syrups and other sugar substitutes.

In canning apples for pie filling slice them immediately after paring into slightly salted cold water. Pack the product carefully in hot glass jars or tin cans until full. Use a table-spoon, wooden ladle, or table knife for packing purposes. Pour boiling hot water over the product in the hot jar. Place rubbers and caps in position, not tight. If using tin cans, seal completely. Place in the sterilizer, hot, or canner, and sterilize for the length of time given below according to the particular type of outfit used:

Minutes
Hot-water bath, homemade or commercial 30
Water seal, 24 degrees 20
5 pounds steam pressure 12
10 pounds steam pressure 10
After sterilizing remove the filled containers. Seal jars, invert to cool and test the joints. Wrap in paper to prevent bleaching and store in a dry place. If tin cans are used it will be found advantageous to plunge them into cold water immediately after sterilization to cool them quickly.

Conversion of Liberty Bonds

3½% Liberty Bonds of the first issue, 1% Liberty Bonds of the second issue, and 1½% Liberty Bonds obtained by converting bonds of the first issue into bonds of the second issue can be converted into 4½% bonds up to November 9, 1918. After that date no further rights of conversion will attach to the 1½% bonds, either the original bonds of the second issue or those obtained by conversion of bonds of the first issue. All of the 4½% bonds are non-convertible.

Coupon bonds may be converted into either coupon or registered bonds but registered bonds only will be exchanged for registered bonds and will be inscribed with the names of the registered owners of such bonds.

All matured coupons, including those maturing June 15, 1918, and May 15, 1918, must be detached from the 4½% bonds before they are surrendered for conversion. The converted bonds will bear interest at the rate of 4½% from June 15, 1918 and May 15, 1918 respectively, and have the same maturity dates as the original bonds.

This bank is prepared to receive and handle all of the above bonds for conversion and places its facilities at the disposal of its customers and the Government.

RIPLEY FLIER MAKES GOOD AS ACROBAT

Lieut. H. P. Baird, of Ripley Does Some Wonderful Stunts in His Airplane at Texas Field.

The following account of some expert airplane work by Lieut. Harold C. Baird of the U. S. Aviation Corps is taken from "Tale Spins," the official publication of Ellington Flying Field, Houston, Texas, where Lieut. Baird is now Officer in Charge of Aerobatics division—an important and responsible position.

"Thrilling Aerial 'Combat' Held at Ellington Field. "Using practically every turn, side and stunt known in aviation, Major McElmond and Lieutenant Baird, aerial combat instructor at Ellington Field, staged one of the most thrilling 'combats' that has been witnessed at the field for some time, Monday afternoon.

"Necks craned out of every window in the barracks, and men on duty ceased their labors to watch these prelude flyers endeavor to get on each other's tails. Both officers went into spin and after spin, and thrills were as numerous as new arrivals at a summer resort on a holiday. First one would get in position for what could have easily been a deadly shot, when he was shaken off by a loop, spiral, side slip or spin.

"Lieutenant Baird in several instances flew on his back. In this, it is safe to say that he surpasses perhaps any flyer in the United States using training machines. The work of both officers brought cries of admiration from the hundreds of witnesses on the ground.

"The 'combat' lasted nearly half hour during which every minute proved a thrill. At times the duel was fought as low as 100 feet. First one would shoot almost vertically toward the clouds, only to be followed by the other. Then spin after spin followed."

WHY DELAY THE KENTUCKY CASUALTIES?

Edward W. Hines, chairman of the Kentucky Council of Defense, has stated that the council had taken steps with the proper authorities in Washington to investigate the reason of the delay in advances from abroad of casualties among the troops from Kentucky.

The purpose in view is to ascertain if there is a reason for the delay, and if such is the case to make the reason known to the people of Kentucky. If no reason exists for such delay it will be the endeavor of the council to have the matter corrected.

Why not try a Ledger Want Ad?

Mrs. Housewife

You can make yourself available to the Allies by canning all the vegetables that you can possibly can this summer. This coming winter is going to be a hard one, take warning. We have a large stock of Mason Jars ½ Gallons, Quarts and Pints. Ideal Self-sealing Jars in Quarts and Pints. Also a good supply of Star Tin Cans, Sealing Wax, Jelly Glasses and Purnex. Yours for a can!

COUNCIL PASSES GARBAGE BUCK TO HEALTH BOARD

Matter of Collecting City Garbage Is
Left Entirely Up to the City Board
of Health by Council's
Committee.

A special committee recently appointed by City Council to go thoroughly into the matter of garbage disposal for the city held a meeting yesterday afternoon and handed the matter entirely over to the City Board of Health for solving and it is understood that the Health Board has plans for the immediate solving of the problem which has long been a serious one here.

The Health Board, it is understood, will within the next few days appoint Mr. Deane Crawford, official city garbage collector and he will make two collections each week from all of the homes asking a small amount from the residents for the removal of the garbage.

The special committee also turned the municipal piggy bank question over to the Board of Health expressing its opinion that a piggy bank was not practical just at this time.

ORDER DAMS LOWERED

Wheeling, W. Va., July 17.—Acting for Colonel Lansing Beach, United States engineer in charge of the operation of Ohio river dams, J. A. McDonough this afternoon issued orders for the lowering of all dams from Pittsburg to Point Pleasant for the creation of an artificial rise of several feet that will enable the movement of three million bushels of coal from the great Kanawha river to the Cincinnati and Louisville markets. Dams No. 1 to No. 20 will be affected by the order. The rise will pass Wheeling Friday morning, July 19; Parkersburg Friday afternoon; Point Pleasant Saturday morning; Huntington Saturday afternoon; and Cincinnati Sunday night. An eleven foot stage below the slack water system will be created by the draining of the pools.

THOSE WHO PAY

Should a good woman who falls, though no fault of her own be condemned. See Bessie Barriscale in "Those Who Pay" at the Pastime today. Look at the price for this wonderful play, 5 and 10 cents, war tax 1 cent.

LOCAL SAILOR SAW COVINGTON WHEN TORPEDOED

Maysville Boy Making Good in U. S. Navy Saw Great Steamship Torpedoed on His Sixth Trip Overseas.

Thomas Wallace, son of Mr. and Mrs. James A. Wallace, of Forest avenue, has had some wonderful experiences since he entered the service of Uncle Sam in the navy more than a year ago.

Young Mr. Wallace first entered the service as an apprentice seaman but in a very short time he was promoted to second seaman and later made a member of the Armed Guard of the United States Navy. As a member of the armed guard he has crossed the Atlantic six times guarding each time a precious load of supplies for our soldiers at the front in Europe.

Just a few days ago young Wallace reached an American port returning from his sixth trip across and one of the first things he did when he landed in the good old U. S. A. was to write to his parents. In his letter he tells of having seen the sinking of the Covington and of his boat having accounted for one submarine on their last trip over.

Mr. Wallace's letter in part says: "I just got in port yesterday so of course we haven't eaten any mail yet, but I thought I would write you so you would know that I was all o. k. I tried to get a furlough but the most I could get was four days. I know that wouldn't be long enough so I turned it down but hope to be able to get a ten days furlough some of these sweet days. It is creeping very close to a year now since I saw you all."

"Well the old Kaiser has one less son, to his credit as we sank one going over and sighted two more but were unable to get them."

"I suppose you heard, or read in the papers about the Covington being sunk. I saw her when she was torpedoed. She was about 1000 yards away from our ship at the time. When the torpedo struck her a column of water about 100 feet higher than the ship shot up and the steam and smoke shot up from her stacks. She then settled on her starboard side and turned about and made all speed back to West. Just outside the harbor she sank. Every one was saved but of course we didn't see her when she went under as we kept coming on our way home."

"That old Kaiser has something coming to him yet."

No Maysville man has made a better record in the service of his country during this present war than has young Wallace. He is now in charge of a gun crew on the steamship Princess Matoka and his gun crew already has had the honor of accounting for more than one German submarine.

CHIEF PORT INSTRUCTED TO HOLD STOLEN AUTO

Chief of Police Harry A. Ort yesterday received a telegram from the Chief of Police of Youngstown, Ohio, instructing him to hold the stolen Auburn automobile located in a local garage Tuesday night. It is expected that the owner will call for the machine. Although efforts are being made to locate the thief so far no trace of him has been found except that a man answering his description purchased a ticket over the C. & O. for Wheeling, W. Va., Tuesday morning.

MEMORIAL FOR FIRST LOCAL NEGRO WAR HERO

Memorial Services For Thomas Butts, Local Negro Who Died in France, To Be Held Sunday Afternoon.

Arrangements are being made for a Memorial Service in honor of Thomas Butts, who died in a base hospital in France a few days ago after being confined there for several weeks on account of illness.

The Memorial will be held on next Sunday afternoon at Scott M. E. Church on Fourth street and a special committee is now arranging a special program which will be fitting for such an occasion.

An oration will be delivered on the young man's life and his sacrifice to his country.

As young Butts has the distinction of being the first Maysville negro to give his life for his country in the present war, it is expected that there will be a very large audience of colored people and many white people who know him and realized the spirit of his sacrifice will also be in attendance.

The program cannot be announced just now and the name of the chief speaker of the afternoon cannot be given but the program will be made public as soon as finally arranged.

PROTESTS AGAINST THE NEGLECT OF OHIO RIVER

Indiana Senator Declares This Stream
Should Share in Proposed
\$8,000,000 Apportionment.

Washington.—Senator James Watson, of Indiana, may file a protest with the federal railroad administration over what he believes to be an undue neglect of the Ohio River. Recently it was stated that the federal road administration intends to allot \$8,000,000 of government funds for barges and other equipment to move commerce on the Mississippi River and the Warrior River, in Alabama. Senator Watson takes the position that it is entirely wrong to allot this enormous sum without spending part of it to promote commerce on the Ohio River, the Mississippi tributary, and he wrote to the railroad administration to inquire whether any part of the \$8,000,000 fund is intended to apply to the Ohio. He has received a reply, which says: "No order has been issued with respect to the Ohio."

QUENTIN ROOSEVELT KILLED IN AIR FIGHT

Youngest Son of Col. Roosevelt Makes
Sacrifice For His Country on
Marne Front.

London, July 17.—Lieut. Quentin Roosevelt, Col. Roosevelt's youngest son, who has been attached to the American line forces on the Marne front, was killed at Chateau Thierry on July 14, says a dispatch from Paris to the Exchange Telegraph company.

Lieut. Roosevelt, the dispatch says, was returning from a patrol flight when he was attacked by a German squadron.

It was seen that Roosevelt suddenly lost control of his machine, having probably received a mortal wound.

A dispatch from Paris says that Roosevelt's machine was seen to fall within the German lines. The significant statement is added that it was not in flames when it fell, which implies that young Roosevelt was either dead or so seriously wounded at the time that he was unable to control his machine, with the further probability that if he were not dead when the machine began to fall he was killed by the fall.

WILL ANNOUNCE WINNERS OF COMMON SCHOOL DIPLOMAS

County Superintendent of Schools George H. Turnipseed is now busily engaged in going over the grades made by the several students who took the Common School examination several weeks ago and expects to be able within the next week to announce the names of those students who made grades high enough to win for them Common School diplomas.

NEGRO MEN TO BE CALLED AT ONCE

The local Exemption Board for Mason county will begin in the very near future to arrange for the calls on twenty-eight colored men from this county who will be sent to Camp Zachary Taylor on Monday, July 29. This call will almost exhaust Class I among the colored men.

ALICE BRADY PLEASES

Alice Brady appearing in a special feature picture at the Gem last night pleased a very large audience. Miss Brady is very popular with the local movie fans and the announcement of the appearance here of the beautiful actress always attracts a large audience to the movies.

57 MASON MEN LEAVE TODAY FOR SERVICE

Largest Contingent of Draftees Yet
Called Will Go to Fort Thomas
This Afternoon—Changes
Made in List.

Fifty-seven Mason county drafted men will leave this afternoon for Fort Thomas. They have been ordered by the local Exemption Board for Mason county to report at the Board headquarters this afternoon and they will march in a body to the depot to take their train.

This is the largest contingent of Mason county men to leave for camp and is composed mostly of men from the county products. There are but about five or six city men in the entire list.

These men received their instructions to prepare for this call several days ago and they are all ready to answer ready. It is expected that there will be a great crowd of people, relatives and friends at the depot to bid them good bye. The men will not be kept at Fort Thomas very long but will be put into detachments being made up and sent in a few hours to other camps for training there.

Some time ago the Ledger carried a list of the men ordered in this call but because of sickness and other causes the list has been changed considerably. Some have been taken off for various causes and others have been added. The official list issued yesterday afternoon by the Mason County Exemption Board follows. The list contains 67 names from which 57 will be chosen. Ten are alternates but not designated.

Mr. George Berlin, who volunteered to go with this squad of men, has been appointed captain.

CULPRITS CUT ROPES ON TENT; DOGS CALLED

Manchester Blood Hounds Pass
Through Here From Pendleton County Where They
Were Called on Serious Case.

Constable Sowards, of Manchester, Ohio, passed through the city last night on his way home from Peach Grove, a small community located near Falmouth in Pendleton county, having with him the Manchester blood hounds.

The man chasing dogs had been called to Pendleton county by the managers of a revival meeting in charge of Rev. "Bud" Robinson, famous holiness evangelist. It seems as though some one in the neighborhood has been interfering with the services most every evening. For some time persons hid in a woods nearby and rocked the tent so that services were much interfered with but these culprits were the first a few nights ago when under cover of night they slipped to the tent, cut the guy ropes and caused the large tent to collapse.

Following this interference, the managers sent the call to Manchester for the bloodhounds. The dogs arrived early yesterday morning but because of much rain in that section of the state they were unable to take up or follow any trail. Pendleton county officers are very anxious to get the men guilty of cutting the tent ropes and they are promised full prosecution if caught.

AIRPLANE STATION FOR THIS CITY

Maysville May Have Visitors From
Aera Fields Coming in Their
Army Planes.

Many cities throughout this section have built landing stations for airplanes and several aviators from the nearby fields have been making trips to these cities showing the people of the cities something of the activities of an army aviator.

It is understood that the people of the city of Huntington, W. Va., have been considerably interested in the coming of student aviators from the Wright Field near Dayton, Ohio, to their city since they built a good airplane station there.

It has been suggested that such a landing be arranged for in Maysville and that the officers of the Aerial training station at Dayton be asked to allow some of these fliers to come by way of Cincinnati and thence up the Ohio river stopping off for a while in Maysville.

It is pointed out that the old race track on Forest avenue would make a splendid place for a landing station and would be a splendid place for the aviators to again take to the air. It is more than likely that the matter will be put up to officers of the Dayton field and it may be that in the near future Maysville will have frequent visits from army aviators.

WOMEN OF FOOD ADMINISTRATION TO HOLD MEETING

All members of the Mason County Unit of the Kentucky Division of the United States Food Administration are requested to meet at the First Presbyterian Church Third street, Maysville, Wednesday 10 o'clock a. m. July 24.

This call includes the Food Production Section, Food Conservation Section and the Home Economics Section.

To carry out instructions that have come from Washington through the Kentucky State Headquarters will require the cooperation of every member of the Mason County organization, Chairmen, Committee members, Colonels, Captains and Lieutenants.

Precinct Colonels are requested to arrange a meeting with their precinct organizations for Thursday, July 25, that every one may get in line for this work.

ALICE LLOYD, Chairman.
Mason County Food Conservation.
**CINCINNATI'S MAYOR VISITS
MAYSVILLE**

Hon. John Galvin, mayor of the city of Cincinnati, was in the city yesterday on legal business and while here paid his friend, Mayor Thomas M. Russell a visit. Mayor Galvin never misses the opportunity when he strikes Mayor Russell in a crowd to tell of the generosity of our Mayor displayed when he sent one corn cob pipe to a whole company of Cincinnati soldiers by the Cincinnati Chief Executive.

COX-ROGERS

Private Bernard Rogers, of Camp Zachary Taylor, and Miss Myrtle Cox, of Short street, were married this morning at the bride's home by Rev. J. E. Reed.

The Ohio sandbar known as "North Shore Beach" is now getting popular with the people of Maysville and many are taking advantage of the low river to spend the evenings in bathing. With a few accommodations the North Shore Beach could be made the most popular resort in this section of the country.

Major D. M. Roberts, nephew of Mrs. Joseph H. Dodson and surgeon at Walter Reed Hospital, Washington, D. C., passed through Maysville last evening on his return to Washington after a two weeks' furlough spent with his family at New Richmond, Ohio.

United States District Attorney Thomas D. Shattery, of Covington, was here yesterday on legal business.

Rev. and Mrs. N. F. Jones left this morning in their automobile for a trip to Richmond, Ky.

Hon. M. J. Hemmessey, of Augusta, spent yesterday in Maysville on legal business.

Private Bernard Rogers of Camp Taylor is visiting relatives in the city.
